

Mosaic Pop-Up

Have some fun with your Pop-Up Displays.

Each square measures 28" x 28"

Use as many as you want and combine them any way you like!

The aluminum lattice construction is light weight, yet sturdy, folds out in seconds and is compact and easy to transport.

Want more? Larger units may be blended in, as shown in example "C" on the left, or just be used as a mini display all by itself.
